The Reflections of the Masters is a group of professional artists who have been carefully studying the techniques of the past masters. They have met many challenges, including replicating minute details that the ravages of time have yellowed and darkened. Their standards are set high, and they strive to achieve the same quality as the guilds of the past with their original works. www.ReflectionsoftheMasters.com

Nilda María Comas has studied the techniques of classical, Renaissance, Baroque and Modern sculpture. Nilda received the highest scholarship given by The New York Academy of Figurative Art and graduated cum laude with a Master of Fine Arts. She has received numerous awards, including a bronze medal and two Agopoff Memorial Prizes from the National Sculpture Society of New York, the first prize for sculpture from Hambro Bank in London, and the Award of Excellence from the Society for Women Artists in London. Her works reside in many public and private collections in The United States, Europe, and Central and South America. www.NildaComas.com
